## THE ADHESIVE FOR TODAY'S PROFESSIONAL TILER

Tiles have changed. The growth in popularity of large format tiles, with their increased weight and smoother backs, presents new fixing challenges to the professional tiler. ARDEX MICROTEC X 77 Flexible Wall and Floor Tile Adhesive achieves double the European Standard for slip resistance, meaning you can confidently fix any tile type or size, whilst also taking advantage of a 3 hour pot life, 60 minute open time and increased coverage per bag.

### Mix more adhesive in a single batch

Enough to use over its 3 hour pot life, meaning less time mixing overall

**LESS  
TIME  
MIXING**

### Fix more tiles in one application

A 60 minute open time means you can spread the adhesive over larger areas without stopping

**MORE  
TIME  
FIXING**

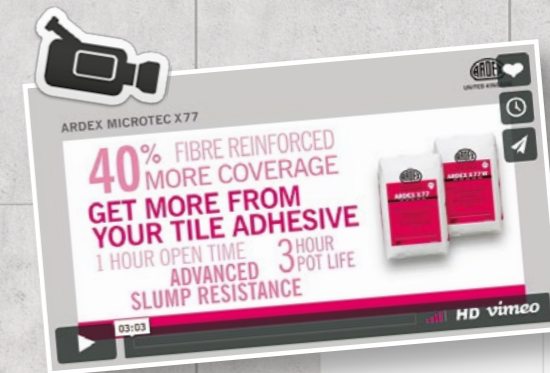

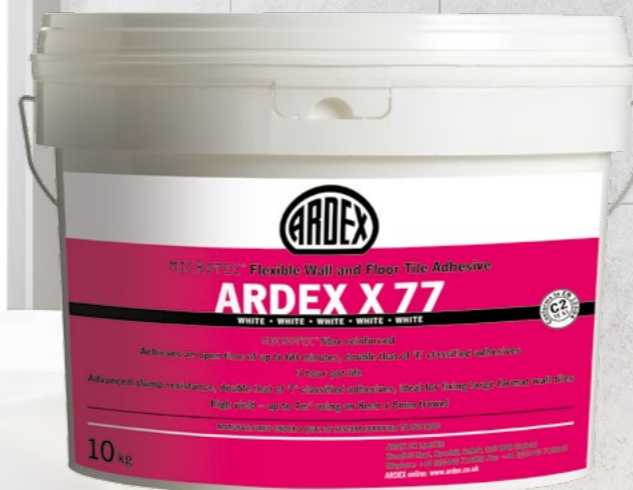

### Fewer bags needed for every job

Its high yield formula allows you to fix up to 40% more tiles than competitors\*

**MAXIMUM  
EFFICIENCY**
