

The Ultimate Uncoupling Matting Installation System

Install matting systems quicker, easier
and more cost-effectively

Suitable for all
fleece-backed matting
and ideal for

Schlüter® - DITRA

by

ARDEX AF 200 PLUS

UNCOUPLING MATTING ADHESIVE

- Minimises the time required to install fleece-back uncoupling matting
- Fix matting to timber, concrete and cement/sand screed subfloors without priming
- Matting can be fixed after 5-10 minutes or, due to its long tack time, up to an hour after application
- High grab formulation prevents curling of the mat for easy installation
- Once matting is installed, ARDITEX NA Ultra Rapid Setting Latex Levelling Compound can be applied immediately
- Cost-effective with up to 45m² coverage from a single tub
- Ready mixed and resealable

ARDITEX NA

ULTRA RAPID SETTING LATEX LEVELLING COMPOUND

- Creates a flat and level surface ideal for tiling
- Quickly and easily fills matting cavities and levels substrate deviations
- Removes the need to pack-out with extra tile adhesive
- Ready to receive tiles after just 3 hours
- High coverage – every unit covers up to 10m² of matting

Install Matting Quicker, Easier & More Cost-Effectively

Ready for use, ARDEX AF 200 PLUS doesn't require mixing. Simply pour directly onto the floor without priming.

For maximum coverage, spread ARDEX AF 200 PLUS with a B1 or 2mm x 6mm v-notch serrated trowel. When finished, reseal the tub ready for the next job.

Matting can be fixed after 5-10 minutes or, due to its long tack time, up to an hour after application. High grab formulation prevents curling of the mat for easy installation.

Matting can be levelled immediately with ARDITEX NA, to quickly and easily create a flat, level surface.

ARDITEX NA can be tiled onto after just 3 hours with an ARDEX Cement-Based Tile Adhesive.

Finish with an ARDEX-FLEX Tile Grout & ARDEX ST Silicone Sealant, available in a wide range of colours.
